Securing a Healthy Future: The Commonwealth Fund State Scorecard on Child Health System Performance, 2011

Release Chart Presentation: Cathy Schoen Senior Vice President, The Commonwealth Fund <u>www.commonwealthfund.org</u> February 1, 2011

Child State Health System Scorecard: Key Findings

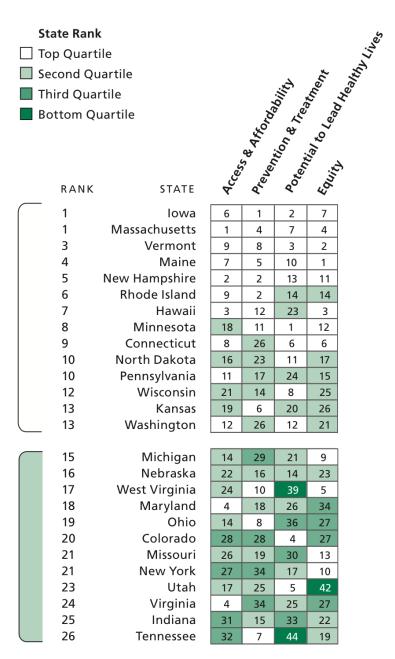

- Wide variation across states: where children live matters
 - Top states regionally clustered in New England and Upper Midwest

2

THE COMMONWEALT FUND

- Two- to threefold spread between top and bottom states
- Innovative public policies and local initiatives in leading states
- Children's health coverage expanded over last decade, while parents' coverage eroded
 - Investments in CHIP and Medicaid offset impact of economic downturn for children's coverage
 - Federal action strengthened state & community efforts to improve
- Room to improve in all states
 - Even in best states, performance falls short on some indicators
 - Wide disparities by insurance, income, and race/ethnicity
 - Child obesity and oral health problems common health challenges
- Large potential for reforms in Affordable Care Act to secure coverage, affordability, and care for children and entire families

Policies and Care System Leadership Make a Difference

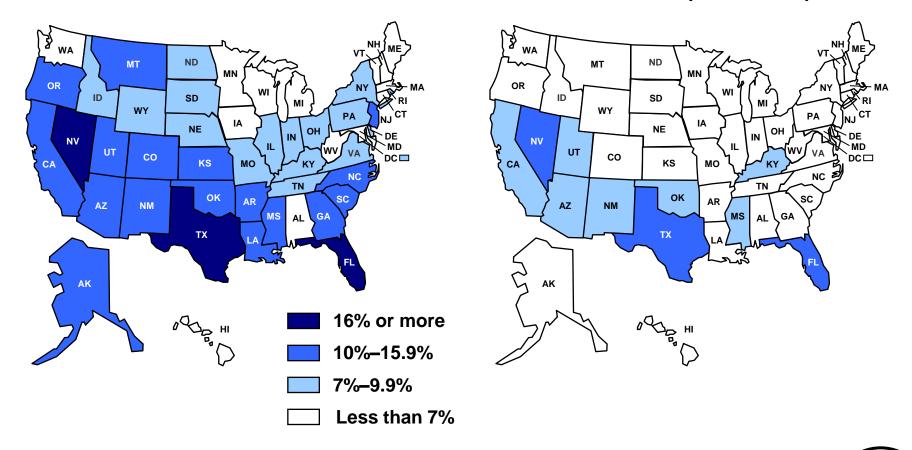

- States and communities have initiatives under way that are making a difference for children
 - Making it easy to participate and stay insured
 - Expanding access to "medical homes"
 - Early identification of children at risk for developmental delays
 - Lowering rates of asthma complications, obesity
 - Improving birth and health outcomes
- Children are at high risk if states cut back or fail to move forward
 - Substantial gaps: two- to threefold variation persists
- Affordable Care Act expands opportunities to improve
 - Insurance expansions will change map of the country
 - Investment in quality and information systems
 - Medicaid source of innovation for children and families
 - Partnership with private payers to focus on health systems that are accountable

Children's Coverage Post-Affordable Care Act Reform Percent of Children Ages 0–18 Uninsured by State

Securing a Healthier Future for Children: Looking Forward

- Insurance: new foundation for affordable care
- Better information on children's health key to guide and inform health system improvement
 - CHIP starts to require tracking quality for children
 - Potential to build statewide systems
- Pilots and initiatives from Innovation Center in partnership with states
- Excitement and opportunity across country
 - Focus on improving health, with more accessible patient-centered, coordinated care
- Potential to give ALL children a more equal opportunity to survive, thrive, and lead healthy, productive lives
