Appendix 1: Health System Financing and Organization in Eleven Countries, 2011

| | Hea | Ith System and Private I | nsurance Role | Pro | Provider Ownership | | |
|-------------|--|---|--|--------------|---|--|--|
| | Government Role | Public System Financing | Private Insurance Role (Core Benefits; Cost-Sharing; Extra Benefits; Substitute Public Insurance) | Primary Care | Hospitals | | |
| | Regionally-administered | | | | | | |
| Australia | universal public insurance program (Medicare) | General tax revenue; earmarked income tax | 50% buy coverage for access to private facilities & extra benefits | Private | Public (~67% of beds), private (~33%) | | |
| Canada | Regionally-administered universal public insurance | Provincial/federal tax | 070/ huw powerse for outre honofile | Drivete | Almost all private, non- | | |
| Canada | program (Medicare) Statutory health insurance | revenue Employer/employee | ~67% buy coverage for extra benefits | Private | profit | | |
| France | system, with all SHI insurers incorporated into single national union | earmarked income and payroll tax; general tax revenue | 90% buy coverage for cost-sharing; some extra benefits | Private | Mostly public, some private | | |
| | Statutory health insurance | | | | | | |
| Germany | system, with 180 competing SHI insurers ("sickness funds"); high income can opt out for private coverage | Employer/employee earmarked payroll tax; general tax revenue | Cost-sharing + amenities (~20%); Substitute: 10% opt-out of SHI system for private coverage only | Private | Public (~50% of beds); private non-profit (~33%); private for-profit (~17%) | | |
| | Statutory health insurance system, with universally- mandated private insurance | Earmarked payroll tax; community-rated insurance premiums; | Private plans provide universal core | | | | |
| Netherlands | (national exchange) | general tax revenue | benefits; 80% buy extra benefits | Private | Mostly private, non-profit | | |
| | , <u> </u> | 0 | ~33% buy for cost-sharing, access to specialists, and elective surgery in | | | | |
| N.Z. | National health service | General tax revenue | private hospitals | Private | Mostly public, some private | | |
| Norway | National health service | General tax revenue | <5% buy for private facilities | Private | Almost all public | | |
| Sweden | National health service | General tax revenue | <5% buy for private facilities | Mixed | Almost all public | | |
| Switzerland | Statutory health insurance system, with universally- mandated private insurance (regional exchanges) | Community-rated insurance premiums; general tax revenue | Private plans provide universal core benefits; 70% buy extra benefits or amenities | Private | Mostly public, some private | | |
| Switzenanu | (regional exchanges) | general lax revenue | amennies | Filvale | wostly public, some private | | |
| U.K. | National health service | General tax revenue | ~10% buy for private facilities | Mixed | Mostly public, some private | | |
| U.S. | Medicare: age 65+, some disabled; Medicaid: some low- income (most under age 65 covered by private insurance; 16% of population uninsured) | Medicare: payroll tax, premiums, federal tax reveue; Medicaid: federal, state tax revenue | Primary private insurance covers 66% of population (employer-based and individual); supplementary for Medicare | Private | Mix of non-profit (~70% of beds), public (~15%), and for-profit (~15%) | | |

^L Last time hospitalized or had surgery, did NOT: 1) receive instructions about symptoms and when to seek further care; 2) know who to contact for questions about condition or treatment; 3) receive written plan for care after discharge; 4) have arrangements made for followup visits; <u>and/or</u> 5) receive very clear instructions about what medicines you should be taking. Base: hospitalized/had surgery in past two years. See Appendix 8 for details.

^m Base: has regular doctor or place of care and hospitalized/had surgery in past two years.

ⁿ In past two years, medical mistake, given wrong medication or dose, lab test error, or delay receiving abnormal test results.

^o Base: taking 2 or more drugs.
