U.S. Variations in Child Health System Performance: A State Scorecard

May 2008

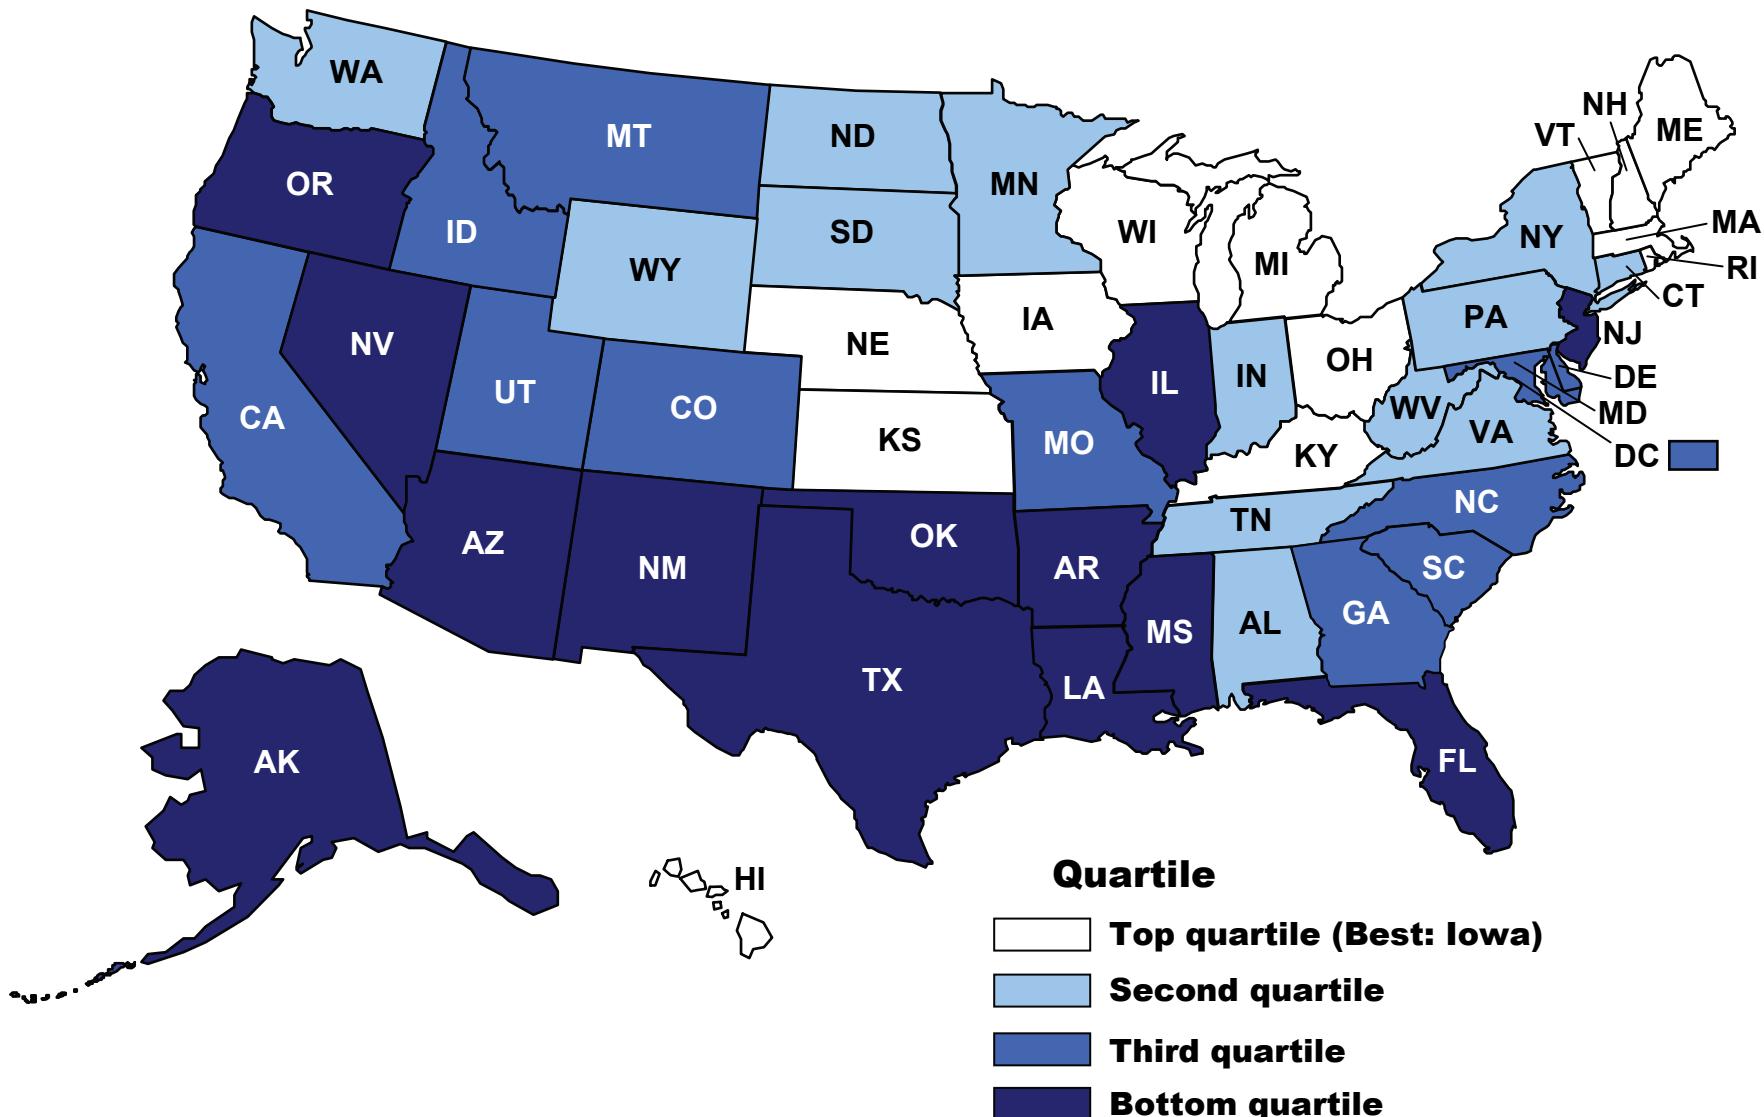

Chartpack

Figure ES-1. Indicators of State Child Health System Performance

| Access | Year | All States Median | Range of State Performance (Bottom–Top) | Best State |
|--|------------------|------------------------|--|------------|
| Children uninsured | 2005–2006 | 9.1% | 20.1–4.9 | MI |
| Low-income children uninsured | 2005–2006 | 16.6% | 34.5–7.0 | DC |
| Quality | | | | |
| Children ages 19–35 months received all recommended doses of five key vaccines | 2005 | 81.6% | 66.7 – 93.5 | MA |
| Children with both medical and dental preventive care visits | 2003 | 59.2% | 45.7 – 74.9 | MA |
| Children with emotional, behavioral, or developmental problems received mental health care | 2003 | 61.9% | 43.4 – 77.2 | WY |
| Children with a medical home | 2003 | 47.6% | 33.8 – 61.0 | NH |
| Children needing specialty care, those whose personal doctor or nurse follows up after they get specialty care services | 2003 | 57.9% | 49.8 – 68.0 | WV |
| Children with special health care needs who needed specialist care with problems getting referrals to specialty care services | 2001 | 22.0% | 33.5 – 13.5 | SD |
| Hospital admissions for pediatric asthma per 100,000 children | 2002 | 176.7 | 314.2 – 54.9 | VT |
| Costs | | | | |
| State total personal health spending | 2004 | \$5,327 | \$8,295 – \$3,972 | UT |
| Family premium for employer-based health insurance | 2005 | \$10,637 | \$8,334 – \$11,924 | ND |
| Potential to Lead Healthy Lives | | | | |
| Young children at moderate/high risk for developmental delay | 2003 | 23.6% | 32.9 – 16.4 | VT |
| Infant mortality: deaths per 1,000 live births | 2002 | 7.1 | 11.0 – 4.3 | ME |
| Equity | | | | |
| Income | 2003 | -11 point gap | -33.7 – 6.4 gap | VT |
| Race/Ethnicity | 2003 | -14.2 point gap | -29.3 – 13.2 gap | VT |
| Insurance coverage | 2003 | -19.2 point gap | -36.2 – 3.9 gap | MA |

Figure ES-3 Summary of Variations in Child Health System Performance

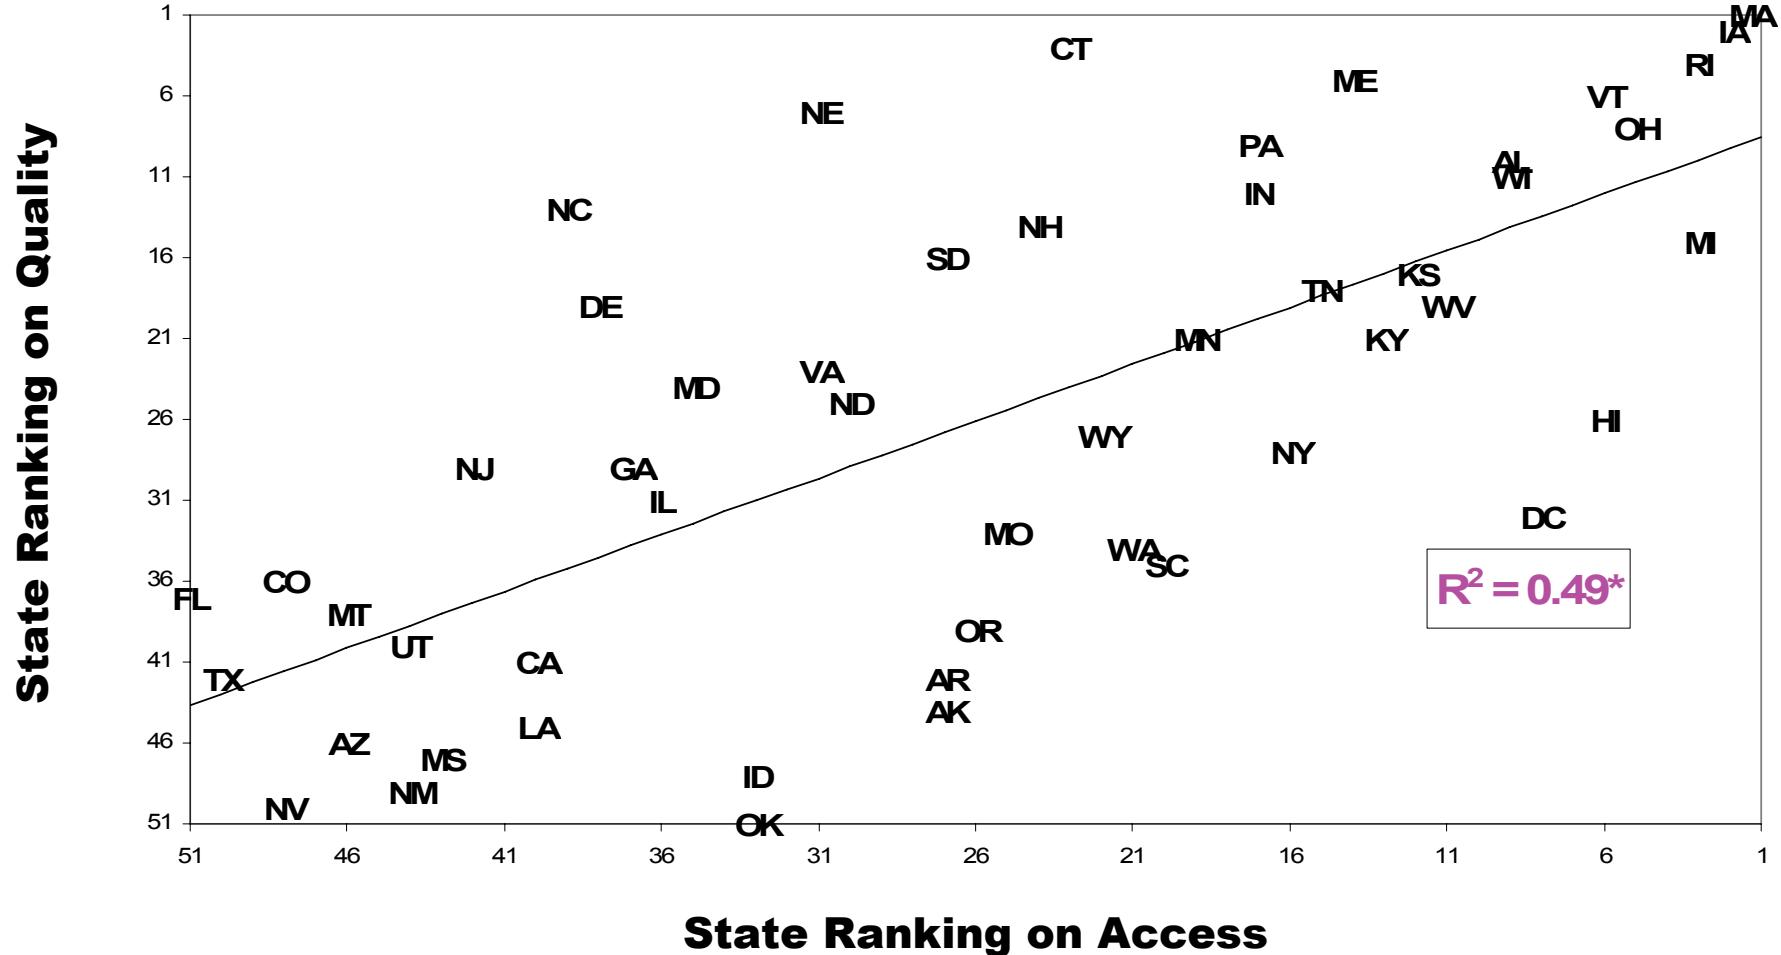

| Overall Rank* | State | Access | Quality | Costs | Equity | Potential to Lead | |
|---------------|----------------------|--------|---------|-------|--------|-------------------|--------------|
| | | | | | | Healthy Lives | Top quartile |
| 1 | Iowa | 2 | 2 | 12 | 19 | 17 | 1 |
| 2 | Vermont | 6 | 6 | 44 | 1 | 1 | 2 |
| 3 | Maine | 14 | 5 | 46 | 3 | | |
| 4 | Massachusetts | 1 | 1 | 47 | 2 | 20 | |
| 5 | Ohio | 5 | 8 | 34 | 10 | 31 | |
| 6 | Hawaii | 6 | 26 | 5 | 11 | 41 | |
| 6 | New Hampshire | 24 | 14 | 40 | 7 | 4 | |
| 8 | Rhode Island | 3 | 4 | 49 | 5 | 31 | |
| 9 | Kentucky | 13 | 21 | 32 | 12 | 18 | |
| 10 | Kansas | 12 | 17 | 16 | 30 | 23 | |
| 10 | Wisconsin | 9 | 11 | 38 | 14 | 26 | |
| 12 | Michigan | 3 | 15 | 28 | 17 | 36 | |
| 13 | Nebraska | 31 | 7 | 22 | 23 | 18 | |
| 14 | Connecticut | 23 | 3 | 49 | 6 | 21 | |
| 15 | Alabama | 9 | 10 | 8 | 28 | 48 | |
| 16 | South Dakota | 27 | 16 | 22 | 36 | 11 | |
| 16 | Wyoming | 22 | 27 | 37 | 18 | 8 | |
| 18 | Pennsylvania | 17 | 9 | 42 | 8 | 37 | |
| 18 | Washington | 21 | 34 | 32 | 20 | 6 | |
| 20 | West Virginia | 11 | 19 | 39 | 4 | 43 | |
| 21 | North Dakota | 30 | 25 | 21 | 32 | 9 | |
| 22 | Indiana | 17 | 12 | 28 | 30 | 33 | |
| 23 | Minnesota | 19 | 21 | 36 | 38 | 7 | |
| 24 | Virginia | 31 | 23 | 8 | 35 | 25 | |
| 25 | New York | 16 | 28 | 45 | 8 | 27 | |
| 26 | Tennessee | 15 | 18 | 26 | 24 | 43 | |
| 27 | Utah | 44 | 40 | 2 | 39 | 3 | |
| 28 | Maryland | 35 | 24 | 31 | 12 | 28 | |
| 29 | Missouri | 25 | 33 | 17 | 27 | 29 | |
| 30 | Montana | 46 | 38 | 12 | 22 | 15 | |
| 31 | North Carolina | 39 | 13 | 11 | 25 | 46 | |
| 32 | District of Columbia | 8 | 32 | 51 | 15 | 38 | |
| 33 | Idaho | 33 | 48 | 7 | 45 | 13 | |
| 34 | California | 40 | 41 | 12 | 40 | 15 | |
| 34 | Colorado | 48 | 36 | 17 | 42 | 5 | |
| 36 | South Carolina | 20 | 35 | 20 | 33 | 41 | |
| 37 | Delaware | 38 | 19 | 40 | 20 | 34 | |
| 38 | Georgia | 37 | 29 | 6 | 36 | 47 | |
| 39 | Illinois | 36 | 31 | 25 | 26 | 38 | |
| 39 | New Mexico | 44 | 49 | 12 | 41 | 10 | |
| 41 | New Jersey | 42 | 29 | 43 | 16 | 29 | |
| 42 | Alaska | 27 | 44 | 47 | 29 | 13 | |
| 42 | Oregon | 26 | 39 | 24 | 47 | 24 | |
| 44 | Arkansas | 27 | 42 | 1 | 46 | 48 | |
| 45 | Nevada | 48 | 50 | 2 | 51 | 21 | |
| 46 | Texas | 50 | 42 | 28 | 44 | 12 | |
| 47 | Arizona | 46 | 46 | 2 | 49 | 35 | |
| 48 | Louisiana | 40 | 45 | 17 | 33 | 51 | |
| 49 | Mississippi | 43 | 47 | 10 | 48 | 50 | |
| 50 | Florida | 51 | 37 | 34 | 43 | 38 | |
| 51 | Oklahoma | 33 | 51 | 26 | 49 | 45 | |

*Final rank for overall health system performance across five dimensions.

Figure ES-4. State Ranking on Access and Quality Dimensions

*p<.05

Source: The Commonwealth Fund's calculations based on state's rankings on access dimension and quality dimension.

Figure ES-5. National Cumulative Impact if All States Achieved Top-State Rates

| Indicator | If all states improved their performance to the level of the best-performing state for this indicator, then: |
|---|---|
| Children uninsured | 4,691,326 more children would be covered by health insurance (public or private), and therefore would be more likely to receive health care when needed |
| Children ages 19–35 months received all recommended doses of five key vaccines | 756,942 more children (ages 19 to 35 months) would be up-to-date on all recommended doses of five key vaccines |
| Children with both medical and dental preventive care visits | 11,775,795 more children (ages 0–17) would have both a medical and dental preventive care visit each year |
| Children with a medical home | 10,858,812 more children (ages 0–17) would have a medical home to help ensure that care is coordinated and accessible when needed |
| Children with special health care needs who needed specialist care with problems getting referrals to specialty care services | 412,895 fewer children with special health care needs (ages 0–17) who needed specialist care would have problems getting referrals to specialty care services |
| Children at risk for developmental delays | 1,613,347 fewer children (ages 1–5) would be at risk for developmental delays |

Source: The Commonwealth Fund's calculations based on summation of differences between highest-achieving state and all other states for each indicator.

Figure 1. Indicators of State Child Health System Performance

Figure 4. Percent of Uninsured Children Declined Since Enactment of SCHIP in 1997, but Gaps Remain

Source: The Commonwealth Fund's two-year averages 1999–2000, updated with 2007 CPS correction, and 2005–2006 from the Census Bureau's March 2000, 2001 and 2006, 2007 Current Population Surveys.

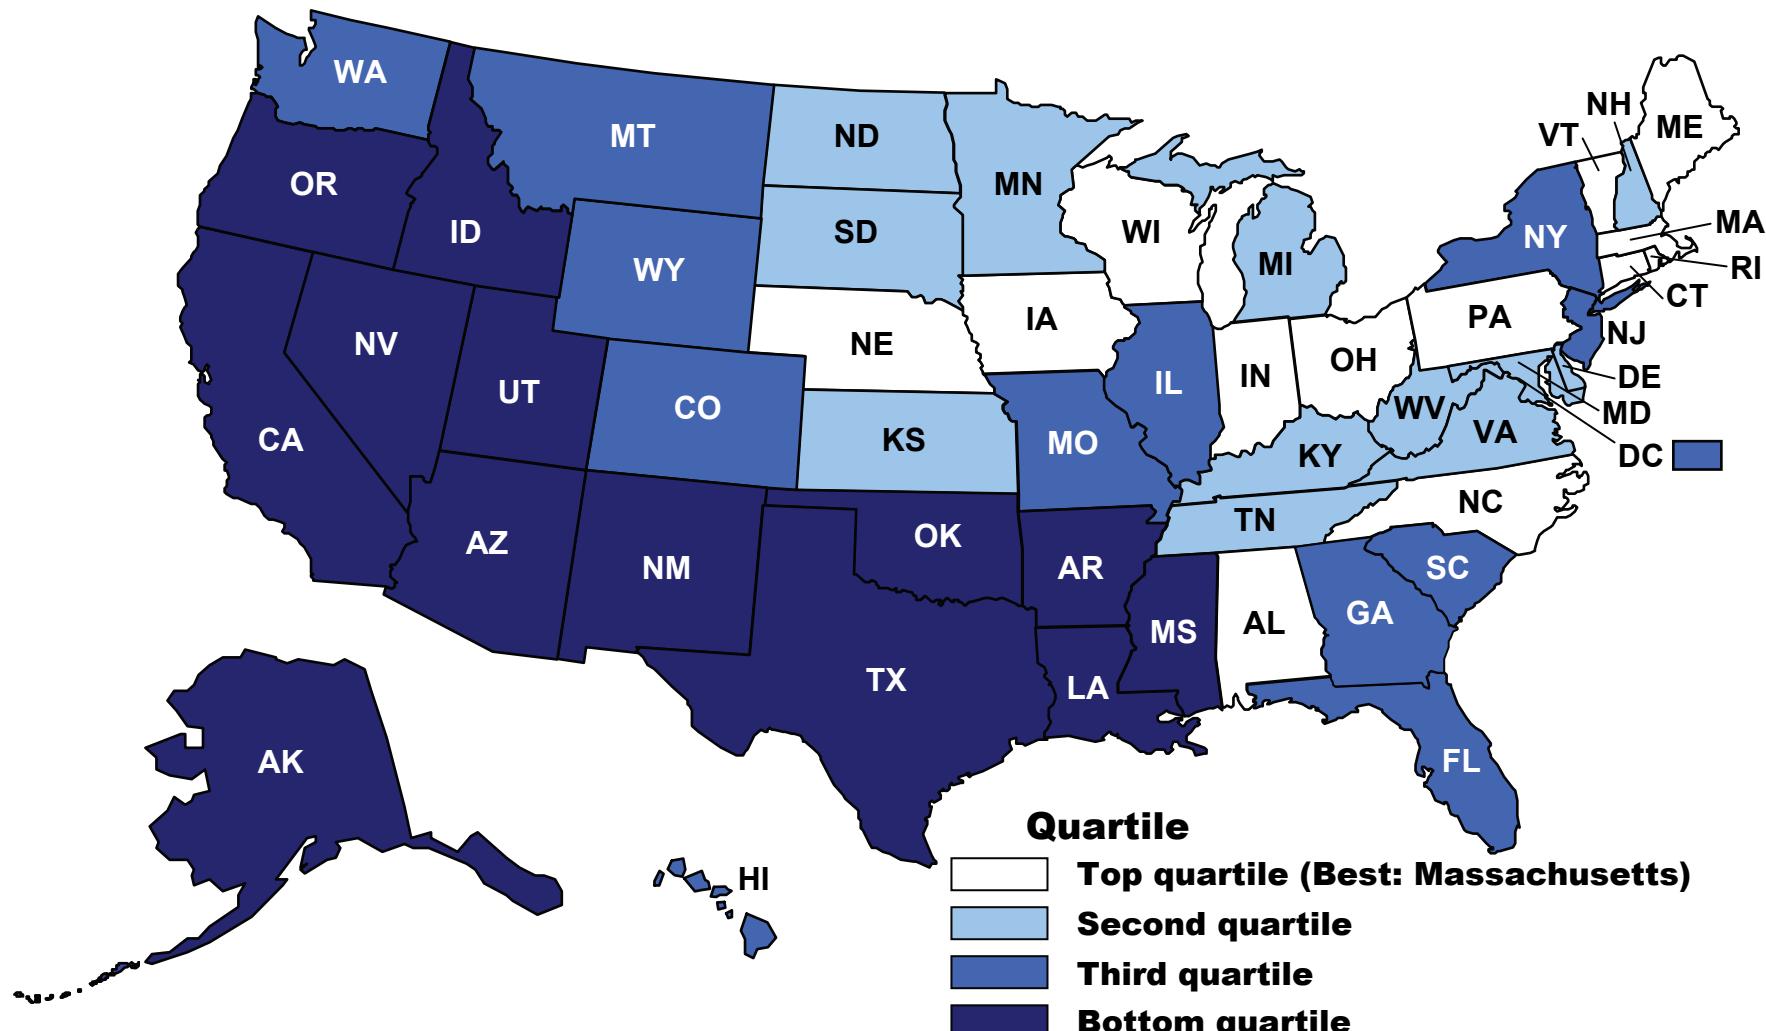

Figure 5. State Ranking on Access Dimension

Access dimension includes: percent of children uninsured and percent of low-income (below 200% of the federal poverty level) children uninsured.

Source: U.S. Census Bureau, Current Population Survey, 2007, 2006 and 2005 Annual Social and Economic Supplements.

Figure 6. State Ranking on Quality Dimension

Quality dimension includes: percent of children 19–35 months who received all recommended doses of five key vaccines; children with both a medical and dental preventive visit in past year; children with emotional, behavioral, or developmental problems received mental health care; children with a medical home; children whose personal doctor or nurse follows-up after they get specialty care services; hospital admissions for pediatric asthma per 100K children; and children with special health care needs with problems getting referrals to specialty care services. Note: Medical home is defined as having at least one preventive medical care visit in the past year; being able to access needed specialist care and services; and having a personal doctor/nurse who usually/always spends enough time and communicates clearly, provides telephone advice and urgent care when needed, and follows up after specialist care.

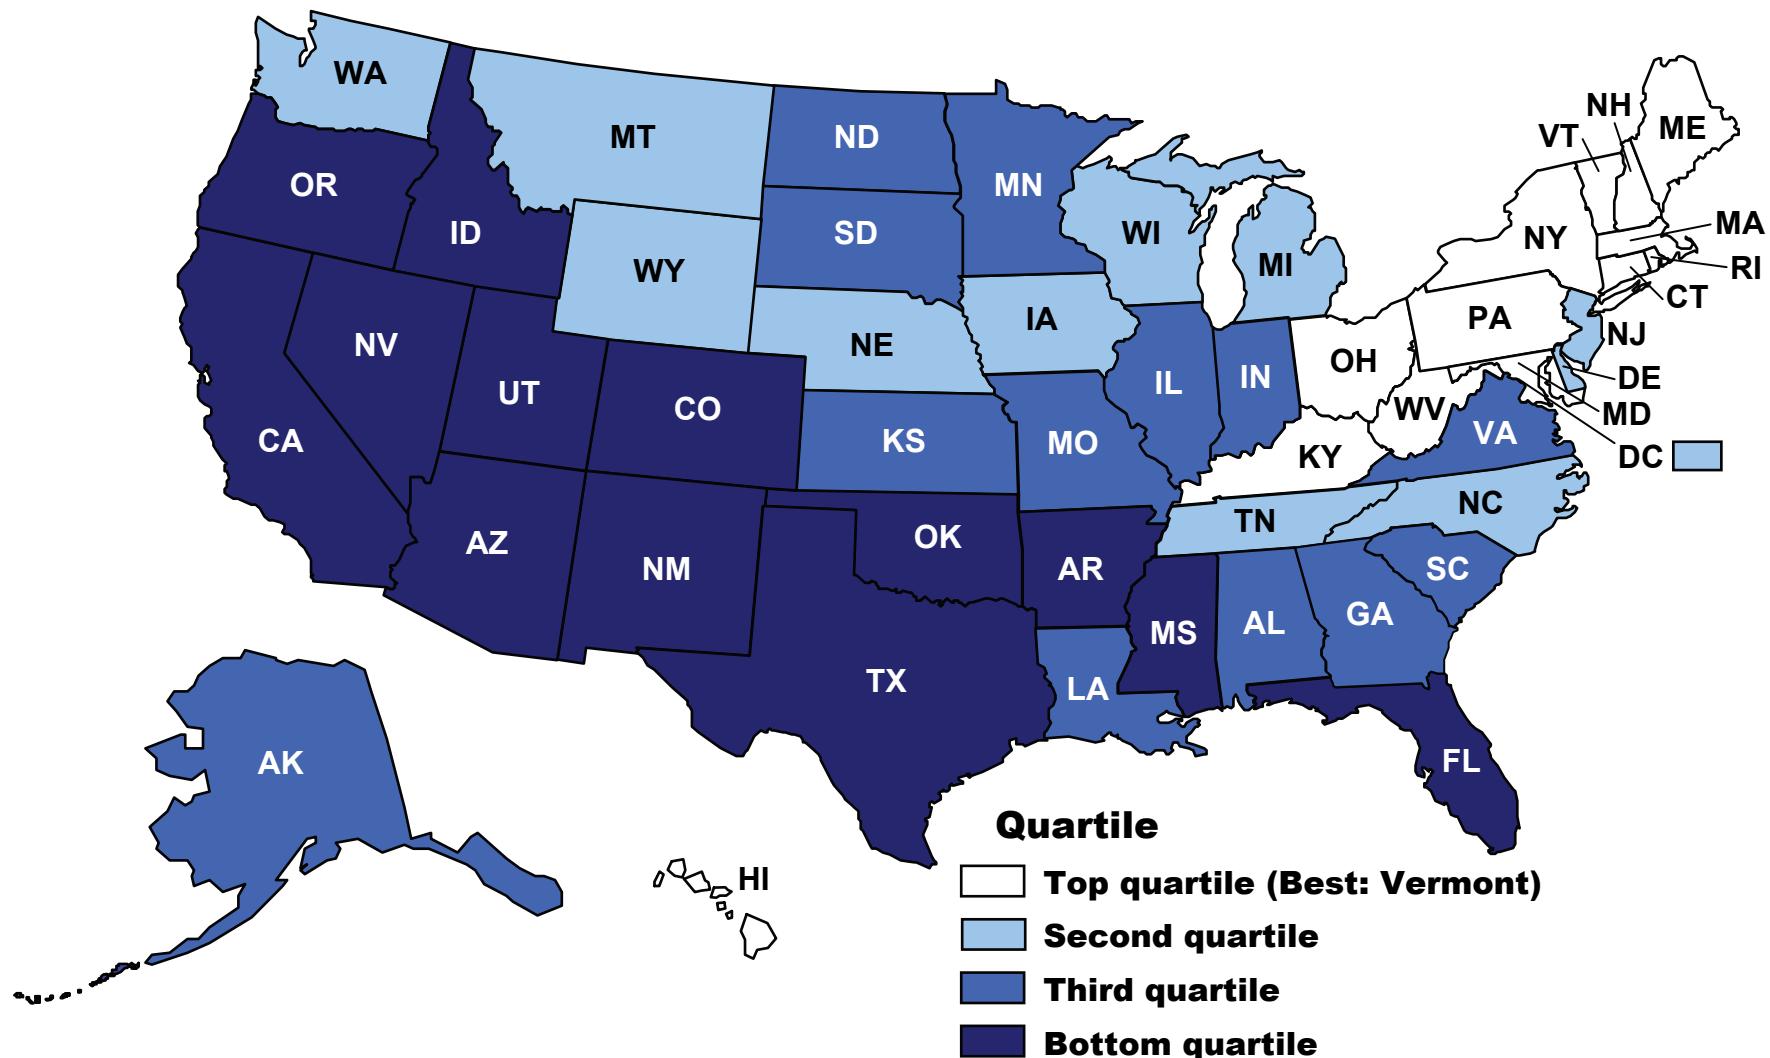

Figure 12. State Ranking on Costs and Quality Dimensions

* $p < .05$

Source: The Commonwealth Fund's calculations based on state's rankings on cost dimension and quality dimension.

Figure 13. State Ranking on Equity Dimension

Equity dimension is: the percentage point difference or “gaps” for each vulnerable subgroup (i.e., minority, low-income, uninsured) compared with the U.S. average for the full population for each of two indicators: percent of children with medical home and percent of children with at least one preventive and dental visit in past year.

| 51 | Nevada | 51 | 49 | 43 | 43 |

*Equity rank on insurance, income, and race is the average difference between the US average for the indicators (medical home and preventive care) and each state's uninsured group, most vulnerable non-white group, or most vulnerable low-income (0-99% FPL or 100%-199% FPL) group. A positive or negative value indicates that this state's most vulnerable group is that much better or worse than the US average for the indicator.
