

# How well does the health care system in **Kansas**

work for people of different racial and ethnic groups?

In Kansas, **AANHPI people** experienced the **best health care outcomes, access, and quality**, scoring in the 73rd percentile among all population groups nationally.

**Black people** experienced the **worst health care outcomes, access, and quality** in the state, scoring in the 10th percentile.

Compared to other states in the Plains region, Kansas has **less severe** racial and ethnic health disparities.

## Health System Performance by Race/Ethnicity

Each column is a racial/ethnic group, and each point represents a state. Performance represented as percentiles (1–100). Kansas performance percentile highlighted. No highlighted dot indicates overall performance data not available for that group.

## Population by race/ethnicity (2024)

	Kansas		Plains		United States	
Total	2,908,364		21,646,244		335,268,606	
AANHPI	92,224	3%	724,921	3%	21,483,845	6%
AIAN	11,400	<1%	182,283	<1%	1,720,874	<1%
Black	141,963	5%	1,453,425	7%	38,820,084	12%
Hispanic	414,690	14%	1,741,470	8%	67,230,087	20%
White	2,093,542	72%	16,470,411	76%	188,863,832	56%

Notes: AANHPI = Asian American, Native Hawaiian, and Pacific Islander. AIAN = American Indian and Alaska Native. “—” means data not available. Plains states include IA, KS, MN, MO, NE, ND, SD.

# How well does the health system in Kansas work for people from different racial and ethnic groups and across different dimensions of care?

## AANHPI

Kansas ranks 23rd among the 33 states we were able to rank. This indicates that the state's health system performance for AANHPI people was worse than the average compared to other states.

Health outcomes ranking: **23** (of 36) is worse than the average  
Health care access ranking: **18** (of 36) is better than the average  
Health care quality ranking: **38** (of 45) is worse than the average

## AIAN

An overall ranking for AIAN people in Kansas is not available because of insufficient data.

Health outcomes ranking: insufficient data  
Health care access ranking: insufficient data  
Health care quality ranking: insufficient data

## Black

Kansas ranks 39th among the 39 states we were able to rank. This indicates that the state's health system performance for Black people was among the worst compared to other states.

Health outcomes ranking: **37** (of 41) is among the worst  
Health care access ranking: **40** (of 41) is among the worst  
Health care quality ranking: **21** (of 45) is better than the average

## Hispanic

Kansas ranks 26th among the 49 states we were able to rank. This indicates that health system performance for Hispanic people was worse than the average compared to other states.

Health outcomes ranking: **34** (of 50) is worse than the average  
Health care access ranking: **29** (of 50) is worse than the average  
Health care quality ranking: **24** (of 50) is better than the average

## White

Kansas ranks 31st among the 51 states we were able to rank. This indicates that the health system performance for white people was worse than the average compared to other states.

Health outcomes ranking: **37** (of 51) is worse than the average  
Health care access ranking: **29** (of 51) is worse than the average  
Health care quality ranking: **30** (of 51) is worse than the average

Notes: Lower values indicate higher rank and better performance among each racial/ethnic group in Kansas compared to other states. Performance data not available for all groups in every state.
