

How well does the health care system in Louisiana work for people of different racial and ethnic groups?

In Louisiana, **AANHPI people** experienced the **best health care outcomes, access, and quality**, scoring in the 71st percentile among all population groups nationally.

AIAN people experienced the **worst health care outcomes, access, and quality** in the state, scoring in the 26th percentile.

Compared to other states in the Southeast region, Louisiana has **less severe** racial and ethnic health disparities.

Health System Performance by Race/Ethnicity

Each column is a racial/ethnic group, and each point represents a state. Performance represented as percentiles (1–100). Louisiana performance percentile highlighted. No highlighted dot indicates overall performance data not available for that group.

Population by race/ethnicity (2024)

	Louisiana		Southeast		United States	
Total	4,505,915		87,720,193		335,268,606	
AANHPI	80,679	2%	2,899,464	3%	21,483,845	6%
AIAN	17,226	<1%	216,853	<1%	1,720,874	<1%
Black	1,343,479	30%	16,903,076	19%	38,820,084	12%
Hispanic	348,990	8%	12,540,079	14%	67,230,087	20%
White	2,497,305	55%	50,802,002	58%	188,863,832	56%

Notes: AANHPI = Asian American, Native Hawaiian, and Pacific Islander. AIAN = American Indian and Alaska Native. “—” means data not available. Southeast states include AL, AR, FL, GA, KY, LA, MS, NC, SC, TN, VA, WV.

How well does the health system in Louisiana work for people from different racial and ethnic groups and across different dimensions of care?

AANHPI

Louisiana ranks 24th among the 33 states we were able to rank. This indicates that the state's health system performance for AANHPI people was worse than the average compared to other states.

- Health outcomes ranking: **20** (of 36) is worse than the average
- Health care access ranking: **32** (of 36) is among the worst
- Health care quality ranking: **17** (of 45) is better than the average

AIAN

Louisiana ranks 5th among the 21 states we were able to rank. This indicates that the state's health system performance for AIAN people was among the best compared to other states.

- Health outcomes ranking: **6** (of 23) is better than the average
- Health care access ranking: **4** (of 21) is among the best
- Health care quality ranking: **21** (of 25) is among the worst

Black

Louisiana ranks 22nd among the 39 states we were able to rank. This indicates that the state's health system performance for Black people was worse than the average compared to other states.

- Health outcomes ranking: **35** (of 41) is worse than the average
- Health care access ranking: **16** (of 41) is better than the average
- Health care quality ranking: **19** (of 45) is better than the average

Hispanic

Louisiana ranks 22nd among the 49 states we were able to rank. This indicates that health system performance for Hispanic people was better than the average compared to other states.

- Health outcomes ranking: **13** (of 50) is better than the average
- Health care access ranking: **46** (of 50) is among the worst
- Health care quality ranking: **5** (of 50) is among the best

White

Louisiana ranks 40th among the 51 states we were able to rank. This indicates that the health system performance for white people was worse than the average compared to other states.

- Health outcomes ranking: **43** (of 51) is worse than the average
- Health care access ranking: **31** (of 51) is worse than the average
- Health care quality ranking: **43** (of 51) is worse than the average

Notes: Lower values indicate higher rank and better performance among each racial/ethnic group in Louisiana compared to other states. Performance data not available for all groups in every state.
