

How well does the health care system in Michigan work for people of different racial and ethnic groups?

In Michigan, **AANHPI people** experienced the **best health care outcomes, access, and quality**, scoring in the 84th percentile among all population groups nationally.

AIAN people experienced the **worst health care outcomes, access, and quality** in the state, scoring in the 25th percentile.

Compared to other states in the Great Lakes region, Michigan has **less severe** racial and ethnic health disparities.

Health System Performance by Race/Ethnicity

Each column is a racial/ethnic group, and each point represents a state. Performance represented as percentiles (1–100). Michigan performance percentile highlighted. No highlighted dot indicates overall performance data not available for that group.

Population by race/ethnicity (2024)

	Michigan		Great Lakes		United States	
Total	10,033,909		47,015,141		335,268,606	
AANHPI	381,468	4%	1,888,620	4%	21,483,845	6%
AIAN	33,491	<1%	99,381	<1%	1,720,874	<1%
Black	1,256,765	13%	5,152,037	11%	38,820,084	12%
Hispanic	615,472	6%	4,772,393	10%	67,230,087	20%
White	7,201,139	72%	32,853,086	70%	188,863,832	56%

Notes: AANHPI = Asian American, Native Hawaiian, and Pacific Islander. AIAN = American Indian and Alaska Native. “—” means data not available. Great Lakes states include IL, IN, MI, OH, WI.

How well does the health system in Michigan work for people from different racial and ethnic groups and across different dimensions of care?

AANHPI

Michigan ranks 15th among the 33 states we were able to rank. This indicates that the state's health system performance for AANHPI people was better than the average compared to other states.

- Health outcomes ranking: **18** (of 36) is better than the average
- Health care access ranking: **14** (of 36) is better than the average
- Health care quality ranking: **27** (of 45) is worse than the average

AIAN

Michigan ranks 6th among the 21 states we were able to rank. This indicates that the state's health system performance for AIAN people was better than the average compared to other states.

- Health outcomes ranking: **8** (of 23) is better than the average
- Health care access ranking: **8** (of 21) is better than the average
- Health care quality ranking: **11** (of 25) is better than the average

Black

Michigan ranks 31st among the 39 states we were able to rank. This indicates that the state's health system performance for Black people was worse than the average compared to other states.

- Health outcomes ranking: **36** (of 41) is among the worst
- Health care access ranking: **9** (of 41) is better than the average
- Health care quality ranking: **40** (of 45) is among the worst

Hispanic

Michigan ranks 5th among the 49 states we were able to rank. This indicates that health system performance for Hispanic people was among the best compared to other states.

- Health outcomes ranking: **38** (of 50) is worse than the average
- Health care access ranking: **6** (of 50) is better than the average
- Health care quality ranking: **12** (of 50) is better than the average

White

Michigan ranks 28th among the 51 states we were able to rank. This indicates that the health system performance for white people was worse than the average compared to other states.

- Health outcomes ranking: **35** (of 51) is worse than the average
- Health care access ranking: **18** (of 51) is better than the average
- Health care quality ranking: **32** (of 51) is worse than the average

Notes: Lower values indicate higher rank and better performance among each racial/ethnic group in Michigan compared to other states. Performance data not available for all groups in every state.
