

How well does the health care system in Washington work for people of different racial and ethnic groups?

In Washington, **AANHPI people** experienced the **best health care outcomes, access, and quality**, scoring in the 98th percentile among all population groups nationally.

AIAN people experienced the **worst health care outcomes, access, and quality** in the state, scoring in the 15th percentile.

Compared to other states in the West region, Washington has **more severe** racial and ethnic health disparities.

Health System Performance by Race/Ethnicity

Each column is a racial/ethnic group, and each point represents a state. Performance represented as percentiles (1–100). Washington performance percentile highlighted. No highlighted dot indicates overall performance data not available for that group.

Population by race/ethnicity (2024)

	Washington		West		United States	
Total	7,845,365		56,390,390		335,268,606	
AANHPI	893,115	11%	8,485,098	15%	21,483,845	6%
AIAN	58,231	<1%	302,236	<1%	1,720,874	<1%
Black	300,473	4%	2,636,472	5%	38,820,084	12%
Hispanic	1,173,559	15%	18,932,453	34%	67,230,087	20%
White	4,829,678	62%	22,534,209	40%	188,863,832	56%

Notes: AANHPI = Asian American, Native Hawaiian, and Pacific Islander. AIAN = American Indian and Alaska Native. “—” means data not available. West states include AK, CA, HI, NV, OR, WA.

How well does the health system in Washington work for people from different racial and ethnic groups and across different dimensions of care?

AANHPI

Washington ranks 2nd among the 33 states we were able to rank. This indicates that the state's health system performance for AANHPI people was among the best compared to other states.

- Health outcomes ranking: **16** (of 36) is better than the average
- Health care access ranking: **4** (of 36) is among the best
- Health care quality ranking: **6** (of 45) is better than the average

AIAN

Washington ranks 11th among the 21 states we were able to rank. This indicates that the state's health system performance for AIAN people was worse than the average compared to other states.

- Health outcomes ranking: **14** (of 23) is worse than the average
- Health care access ranking: **10** (of 21) is better than the average
- Health care quality ranking: **6** (of 25) is better than the average

Black

Washington ranks 8th among the 39 states we were able to rank. This indicates that the state's health system performance for Black people was better than the average compared to other states.

- Health outcomes ranking: **5** (of 41) is among the best
- Health care access ranking: **21** (of 41) is worse than the average
- Health care quality ranking: **24** (of 45) is worse than the average

Hispanic

Washington ranks 15th among the 49 states we were able to rank. This indicates that health system performance for Hispanic people was better than the average compared to other states.

- Health outcomes ranking: **11** (of 50) is better than the average
- Health care access ranking: **17** (of 50) is better than the average
- Health care quality ranking: **21** (of 50) is better than the average

White

Washington ranks 13th among the 51 states we were able to rank. This indicates that the health system performance for white people was better than the average compared to other states.

- Health outcomes ranking: **15** (of 51) is better than the average
- Health care access ranking: **19** (of 51) is better than the average
- Health care quality ranking: **8** (of 51) is better than the average

Notes: Lower values indicate higher rank and better performance among each racial/ethnic group in Washington compared to other states. Performance data not available for all groups in every state.
