

How well does the health care system in **West Virginia** work for people of different racial and ethnic groups?

In West Virginia, **White people** experienced the **best health care outcomes, access, and quality**, scoring in the 46th percentile among all population groups nationally.

Hispanic people experienced the **worst health care outcomes, access, and quality** in the state, scoring in the 21st percentile.

Compared to other states in the Southeast region, West Virginia has **less severe** racial and ethnic health disparities.

Health System Performance by Race/Ethnicity

Each column is a racial/ethnic group, and each point represents a state. Performance represented as percentiles (1–100). West Virginia performance percentile highlighted. No highlighted dot indicates overall performance data not available for that group.

Population by race/ethnicity (2024)

	West Virginia		Southeast		United States	
Total	1,737,267		87,720,193		335,268,606	
AANHPI	11,958	<1%	2,899,464	3%	21,483,845	6%
AIAN	2,558	<1%	216,853	<1%	1,720,874	<1%
Black	49,135	3%	16,903,076	19%	38,820,084	12%
Hispanic	38,286	2%	12,540,079	14%	67,230,087	20%
White	1,553,576	89%	50,802,002	58%	188,863,832	56%

Notes: AANHPI = Asian American, Native Hawaiian, and Pacific Islander. AIAN = American Indian and Alaska Native. “—” means data not available. Southeast states include AL, AR, FL, GA, KY, LA, MS, NC, SC, TN, VA, WV.

How well does the health system in West Virginia work for people from different racial and ethnic groups and across different dimensions of care?

AANHPI

An overall ranking for AANHPI people in West Virginia is not available because of insufficient data.

Health outcomes ranking:	insufficient data
Health care access ranking:	insufficient data
Health care quality ranking:	insufficient data

AIAN

An overall ranking for AIAN people in West Virginia is not available because of insufficient data.

Health outcomes ranking:	insufficient data
Health care access ranking:	insufficient data
Health care quality ranking:	insufficient data

Black

West Virginia ranks 24th among the 39 states we were able to rank. This indicates that the state's health system performance for Black people was worse than the average compared to other states.

Health outcomes ranking:	29 (of 41) is worse than the average
Health care access ranking:	21 (of 41) is worse than the average
Health care quality ranking:	26 (of 45) is worse than the average

Hispanic

West Virginia ranks 30th among the 49 states we were able to rank. This indicates that health system performance for Hispanic people was worse than the average compared to other states.

Health outcomes ranking:	44 (of 50) is worse than the average
Health care access ranking:	27 (of 50) is worse than the average
Health care quality ranking:	21 (of 50) is better than the average

White

West Virginia ranks 50th among the 51 states we were able to rank. This indicates that the health system performance for white people was among the worst compared to other states.

Health outcomes ranking:	51 (of 51) is among the worst
Health care access ranking:	34 (of 51) is worse than the average
Health care quality ranking:	49 (of 51) is among the worst

Notes: Lower values indicate higher rank and better performance among each racial/ethnic group in West Virginia compared to other states. Performance data not available for all groups in every state.
