

How well does the health care system in Wisconsin work for people of different racial and ethnic groups?

In Wisconsin, **White people** experienced the **best health care outcomes, access, and quality**, scoring in the 82nd percentile among all population groups nationally.

Black people experienced the **worst health care outcomes, access, and quality** in the state, scoring in the 18th percentile.

Compared to other states in the Great Lakes region, Wisconsin has **more severe** racial and ethnic health disparities.

Health System Performance by Race/Ethnicity

Each column is a racial/ethnic group, and each point represents a state. Performance represented as percentiles (1–100). Wisconsin performance percentile highlighted. No highlighted dot indicates overall performance data not available for that group.

Population by race/ethnicity (2024)

	Wisconsin		Great Lakes		United States	
Total	5,898,114		47,015,141		335,268,606	
AANHPI	187,967	3%	1,888,620	4%	21,483,845	6%
AIAN	32,875	<1%	99,381	<1%	1,720,874	<1%
Black	331,507	6%	5,152,037	11%	38,820,084	12%
Hispanic	493,228	8%	4,772,393	10%	67,230,087	20%
White	4,598,846	78%	32,853,086	70%	188,863,832	56%

Notes: AANHPI = Asian American, Native Hawaiian, and Pacific Islander. AIAN = American Indian and Alaska Native. “—” means data not available. Great Lakes states include IL, IN, MI, OH, WI.

How well does the health system in Wisconsin work for people from different racial and ethnic groups and across different dimensions of care?

AANHPI

Wisconsin ranks 25th among the 33 states we were able to rank. This indicates that the state's health system performance for AANHPI people was worse than the average compared to other states.

- Health outcomes ranking: **27** (of 36) is worse than the average
- Health care access ranking: **25** (of 36) is worse than the average
- Health care quality ranking: **36** (of 45) is worse than the average

AIAN

Wisconsin ranks 2nd among the 21 states we were able to rank. This indicates that the state's health system performance for AIAN people was among the best compared to other states.

- Health outcomes ranking: **13** (of 23) is worse than the average
- Health care access ranking: **3** (of 21) is among the best
- Health care quality ranking: **1** (of 25) is among the best

Black

Wisconsin ranks 36th among the 39 states we were able to rank. This indicates that the state's health system performance for Black people was among the worst compared to other states.

- Health outcomes ranking: **38** (of 41) is among the worst
- Health care access ranking: **23** (of 41) is worse than the average
- Health care quality ranking: **37** (of 45) is worse than the average

Hispanic

Wisconsin ranks 21st among the 49 states we were able to rank. This indicates that health system performance for Hispanic people was better than the average compared to other states.

- Health outcomes ranking: **27** (of 50) is worse than the average
- Health care access ranking: **21** (of 50) is better than the average
- Health care quality ranking: **29** (of 50) is worse than the average

White

Wisconsin ranks 20th among the 51 states we were able to rank. This indicates that the health system performance for white people was better than the average compared to other states.

- Health outcomes ranking: **20** (of 51) is better than the average
- Health care access ranking: **23** (of 51) is better than the average
- Health care quality ranking: **19** (of 51) is better than the average

Notes: Lower values indicate higher rank and better performance among each racial/ethnic group in Wisconsin compared to other states. Performance data not available for all groups in every state.
