Exhibit 1. One-Quarter of Adults Reported a Gap in Coverage in 2011; More Than Half Were Uninsured for Two Years or More

- Combines “Insured now, time uninsured in past year” and “Uninsured now.”

**Adults ages 19–64**

- Insured all year: 74%
- Uninsured during the year*: 26%

**Length of time uninsured**

- 2 years+: 57%
- 1–<2 years: 12%
- 3–<6 months: 8%
- 6–<12 months: 10%
- <3 months: 12%

* Combines “Insured now, time uninsured in past year” and “Uninsured now.”
Exhibit 2. Adults in Low- and Moderate-Income Households Are Most Likely to Have Gaps in Health Insurance

Percent of adults ages 19–64

- Insured now, time uninsured in past year
- Uninsured now
- Total uninsured during the year

Note: FPL refers to federal poverty level.
Exhibit 3. Reasons for Loss of Employer-Sponsored Insurance and Medicaid

Main reason lost coverage, adults ages 19–64 uninsured during the year*

<table>
<thead>
<tr>
<th>Reason</th>

</tbody>
</table>

* Combines “Insured now, time uninsured in past year” and “Uninsured now.”
** Respondent or spouse’s employer.
^ Source of insurance coverage before time uninsured.

Exhibit 4. Most Adults Who Lose Employer or Medicaid Coverage Are Uninsured for Long Periods of Time

Percent of adults ages 19–64, uninsured during the year*

* Combines “Insured now, time uninsured in past year” and “Uninsured now.”

^ Source of insurance coverage before time uninsured.

Exhibit 5. Most Adults Who Try to Buy Plans in the Individual Insurance Market Find It Difficult to Compare Plans and Find Affordable Coverage

Percent of adults ages 19–64 who tried to purchase an insurance plan in the individual market*

- Found it very difficult or impossible to find coverage they needed: 38%
- Found it very difficult or impossible to find affordable coverage: 62%
- Were turned down, charged a higher price, or had a condition excluded because of a preexisting condition: 31%
- Found it very or somewhat difficult to compare benefits covered: 60%
- Found it very or somewhat difficult to compare premium costs: 55%
- Found it very or somewhat difficult to compare out-of-pocket costs/cost-sharing responsibilities: 65%

* Base: Adults who tried to buy an individual insurance plan in the past three years.
Exhibit 6. Almost Half of Individuals Who Tried Did Not End Up Buying a Plan in the Individual Market: Expensive Premiums Most Often Cited as the Reason

Bought a plan: 55%
Did not buy a plan: 45%

Reasons did not buy a plan:
- Premium was too expensive: 62%
- Deductibles/co-pays were too high: 11%
- Plan did not cover a preexisting condition: 6%
- Gained insurance through another source: 7%
- Other: 13%

Exhibit 7. Adults with Gaps in Coverage Are Less Likely to Have a Regular Doctor or Be Up to Date with Blood Pressure and Cholesterol Checks

|^ Includes doctor, doctors group, health center, or clinic. ^^ Blood pressure checked in past year; cholesterol checked in past five years (in past year if has hypertension or heart disease).|
Exhibit 8. Adults with Gaps in Coverage Are Less Likely to Be Up to Date with Recommended Cancer Screenings

Percent of adults ages 19–64

<table>
<thead>
<tr>
<th></th>
<th>Insured all year</th>
<th>Uninsured for one year or more*</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pap test^</td>
<td>72</td>
<td>46</td>
</tr>
<tr>
<td>Mammogram^</td>
<td>74</td>
<td>28</td>
</tr>
<tr>
<td>Colon cancer screening^</td>
<td>57</td>
<td>9</td>
</tr>
</tbody>
</table>

* Sample size is too small to show rates for respondents uninsured for less than a year.

^ Pap test in past year for females ages 19–29, past three years ages 30–64; mammogram in past two years for females ages 40–64; and colon cancer screening in past five years for adults ages 50–64.

Exhibit 9. Awareness of and Enrollment in Young Adult Coverage Option Under the Affordable Care Act, by Income
