Uninsured Rates for High-Need Adults Lower in Medicaid Expansion States Than in Nonexpansion States

Exhibit 2

High-Need Adults More Likely Than Adults Overall to Not See a Doctor Because of Costs, But Rates Vary

Notes: States are arranged in rank order based on the state average for variable of interest (best to worst performing) for the high-need population.

Exhibit 3

Percent of High-Need Adults Who Went Without Physician Care and Prescriptions Because of Costs Varied Widely

Notes: States are arranged in rank order. Data not available for Arkansas, California, Colorado, District of Columbia, Florida, Hawaii, Indiana, Kansas, Maine, Missouri, Oklahoma, South Dakota, Texas, and Wyoming.

High-Need Adults Less Likely to Have Unmet Medical Needs in States That Expanded Medicaid Under the ACA

<table>
<thead>
<tr>

Exhibit 5
High-Need Adults Delayed Needed Care for Reasons Other Than Cost at Higher Rates Than Adults Overall

Percent

- High-need adults (2+ chronic conditions with a functional limitation), 2014
- All adults, 2014

Reasons for delaying needed care among high-need adults, 2014 (%)

- Office not open: 37
- Could not reach provider on telephone: 13
- Waited too long in the office: 23
- Did not have transportation: 20
- Other: 4
- Not able to get an appointment in time: 3

Notes: States are arranged in rank order based on the state average for variable of interest (best to worst performing) for the high-need population. Data not available for Arkansas, California, Colorado, Florida, Hawaii, Indiana, Kansas, Maine, Missouri, Oklahoma, South, Dakota, Texas, and Wyoming.
High-Need Adults Less Satisfied with Care Than Are Other Adults

Percent of adults only somewhat satisfied or not satisfied with the care they received

- High-need adults (2+ chronic conditions with a functional limitation), 2014
- All adults, 2014

Notes: States are arranged in rank order based on the state average for variable of interest (best to worst performing) for the high-need population. Data not available for Arkansas, California, Colorado, Florida, Hawaii, Indiana, Kansas, Maine, Missouri, Oklahoma, South Dakota, Texas, and Wyoming.

High-Need Adults with Insurance Coverage Are Much More Likely to Have a Usual Source of Care Than Those Uninsured

<table>
