

Figure ES-1. Adoption of Culture Change by Nursing Homes, 2007

Categories of Nursing Homes, by Extent of Culture Change Adoption

* Culture change or a resident-centered approach means an organization that has home and work environments in which: care and all resident-related activities are decided by the resident; living environment is designed to be a home rather than institution; close relationships exist between residents, family members, staff, and community; work is organized to support and allow all staff to respond to residents' needs and desires; management allows collaborative and group decision making; and processes/measures are used for continuous quality improvement.

Figure ES-2. Residents' Ability to Determine Daily Schedules and Make Decisions Varies Widely Between Culture Change Adopters and Traditional Nursing Homes

Percent of nursing homes indicating they are currently implementing:

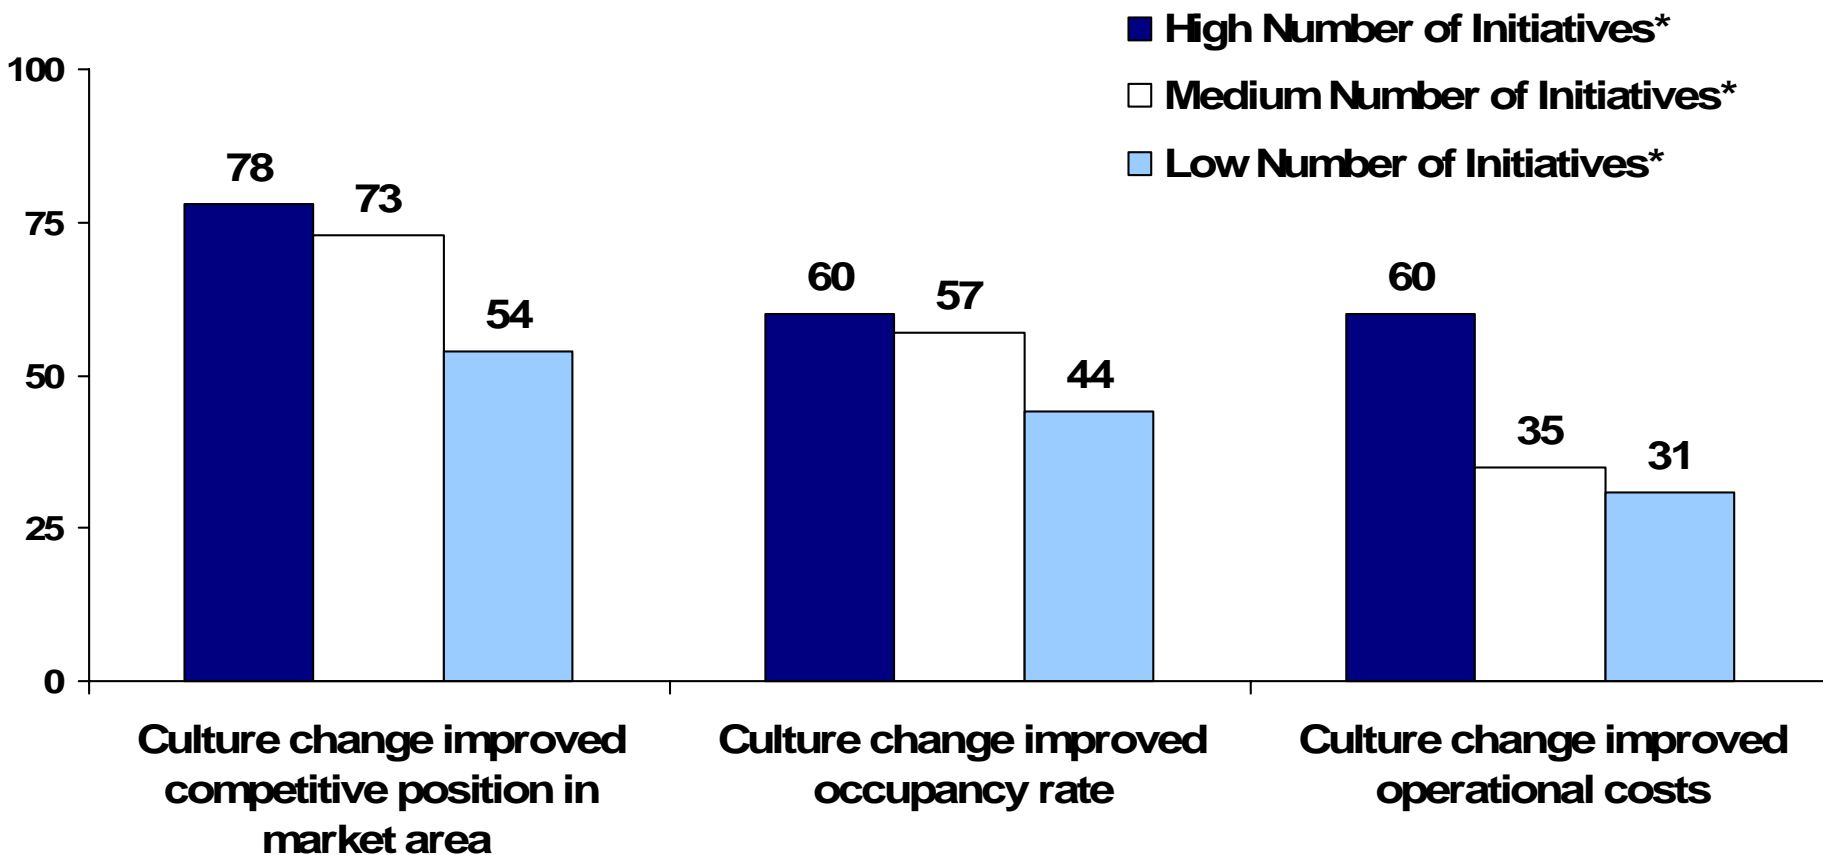

Culture Change Adopters = culture change definition completely or for most part describes nursing home. Culture Change Strivers = culture change definition describes nursing home only in a few respects or not at all but leadership is very/extremely committed to the adoption of culture change. Traditional = culture change definition describes nursing home only in a few respects or not at all AND leadership is less than very/extremely committed to the adoption of culture change.
